Dear Sir. —

I have a Collection
of old Medals handed
down for generations
15 in all - No two alike
dating from the 14th
century and one or
two much older - dates
are mostly - Roman Numerals
and Latin inscriptions. Some
are double sided and are
between $3\frac{1}{4}$ to $4\frac{1}{2}$ inches
in diameter - I'm sending

a list of some.

I wanted like to realize
in them. If I can
get anything like they
are worth.

Yours respectfully

Dear Sir:

Your letter to the American Museum of Natural History has been referred to us for reply. I am sorry we can give you little help owing to the scanty description of the medals you have forwarded. Could you not have the better of them photographed? I doubt that they will have much value, but this is the only thing I can suggest towards enabling you to find out.

Very truly yours,

Secretary
